## LOCAL AND PERSONAL

White Leghorn cockerels for sale, at \$2 each. Somerville Plantation. 4-3

J. C. Lightfoot and W. S. Shinault shipped a car of hogs from this city last week to Memphis where they were sold to the Memphis Packing Corporation.

I have Durocs for sale: Service males, bred and open sows and gilts, male and female pigs. W. T. Loggins, Somerville. 4-29

Misses Frances Crawford, daughter of Dr. and Mrs. J. K. Crawford, and Miss Nell Crawford, of Mr. and Mrs. C. W. Crawford, were visitors to Williston the past week end.

Rev. T. L. Russell of Jackson will preach at St. Thomas church in this city next Thursday night at 7:30 and will hold early morning communion on Friday morning. The public is cordially invited to attend both services.

FOR SALE—A refrigerator, White enameled inside used one year. Price \$15. Can be seen at Mrs. A. O. Boals, E. McNeil.

Circuit Court Clerk S. A. Wetzler has rented rooms in the R. E. Buford home on Concord street and he and Mrs. Wetzler will at an early date move to them and make their home. The Falcon family is glad to have these new neighbors.

"How the Story Started," a play given by the Williston Parent-Teacher Association, Friday night, April 8. Admission 10 and 20c. The money to be used for the benefit of the Williston school house, all invited.

Dr. Jno. Morris, Mayor of this city, asks that the attention of Somerville people particularly be called to the announcement in this issue of a county-wide Clean-up-day April 14, and the people of Somerville give their earnest co-operation to the movement.

The public is getting much genuine pleasure out of the band concerts being given in the court house yard each Saturday afternoon by the local band. The members of the band are giving good music and the public is enjoying it to the fullest. Somerville is fortunate in having this fine organization here.

FOR SALE—Jersey cow with calf three weeks old. J. B. Claxton, Somerville, R. F. D. 4-15.

Dr. V. W. Yates who practiced Veterinary Medicine here for several years arrived this week from his home at Greenwood, Mississippi, and is spending a few days with friends here. He reports financial conditions in the Delta country far worse than they are here.

FOR SALE—White Leghorn eggs for hatching, 50 cents per dozen. Somerville Plantation. 4-8

Since our last week's issue further examination of the fruit following last week's freeze convinces us that the peach crop in this section was practically destroyed entirely. A few people tell us that certain trees have a fair crop, but our examination finds nearly every peach killed, and other fruits badly damaged by the freeze.

Chairman W. G. Shelton, Clerk C. W. Crawford and Trustee J. T. Jordan, the committee appointed by the county court Tuesday to sell the \$50,000 of bonds authorized, Thursday morning sold the entire issue to the Somerville Bank & Trust Company of this city, the price paid being par and accrued interest.

"Yanki San" was presented at Lipsky opera house last Friday night to one of the largest and most enthusiastic audiences that has ever assembled in that auditorium. It was a Japanese play and was gotten up by local talent and given for the benefit of the Parent-Teacher Association. Few entertainments of any nature ever given in Somerville elicited more favorable comment than did this. Its presentation showed fine preparation and a splendid degree of talent in the local people taking the several parts.

Word from Tom Reeves Wednesday is most encouraging. He is improving in a marked degree and those attending him seem to believe there is good change for his recovery. He is yet at St. Joseph Hospital where he was carried immediately following his being shot by Manuel Moore, a negro whom he was about to arrest for forgery.

LOST OR STRAYED—One Luellan setter dog, white and black body, ears black, answers to name of Joe. Reward for recovery. Phone 59. Folsom-Lipsky Co. 4-8

The best line of cigarettes in Turkish and Domestic blends can be found at Harvey Morris. adv.

The Parent-Teacher Association of the Glade Springs neighborhood met at the School building Tuesday afternoon. Officers were re-elected and plans made for future work. Miss Brassfield was present and added much to the meeting by her interest and suggestions. The next meeting will be with Mrs. Arthur Winfrey April 22nd.

FOR SALE—Mosby Prolific seed corn. Carefully selected hand shelled \$2.25 per bushel. C. F. Akin, Somerville, R. 2. 4-15

Dr. H. L. Armstrong returned home from Carterville, Ill. on last Saturday morning. The doctor was called to Carterville in consultation by two of the physicians of that city. The patient, a young girl, was relieved and Dr. Armstrong left her in a fair way to recovery. Somerville is to be congratulated on the fact, that through her citizen, she enjoys a fine reputation abroad. "C"

FOR SALE—A splendid young Duroc boar sired by Joe Orion 2, bred on Eastern Arkansas Demonstration Farm at Brinkley, Arkansas. A good individual. James Alexander Construction Co. 4-8

SALESMAN WANTED—To represent Moorman Mfg. Company, Quincy, Illinois, in Fayette and adjacent counties selling a line of stockmen's supplies direct to farmers. Excellent proposition. No investment. No collections or deliveries to be made. You are home every night and are given every assistance by a highly developed sales and advertising organization. Write G. C. Robison, Box 84, Jackson, Tennessee. 4-15

Half & Half cotton seed—One year from originator. Average turnout entire crop 45 per cent. \$5 per 100 pounds. T. A. Moorman. 4-15

All obstacles to the construction of Loosahatche drainage canal have now been removed and it is thought the contract will be let for the work in the next month and active work will soon begin. The canal will begin near the headwaters of the stream near Laconia instead of stopping at Somerville as was contemplated at one time a few weeks ago, property owners above the Water Mill having compromised their claims with the Canal Directors. This assures the construction of the largest drainage canal yet projected in the county, and will open up many thousand acres of fertile lands.

TAKEN UP—One sorrel mare mule, 13½ hands high, from appearance about 5 years old, in fair shape. W. H. Cocke, Gallaway Tenn. 4-15.

County Tax Assessor S. P. Crawford has been in this city and district the past several days assessing all taxes in accordance with the law which requires a re-assessment of real estate this year. Under the old law, the Roberts law, the real estate figures fixed last year would apply again this year, but the legislature very wisely saw the injustice of last year's assessment and passed a new act requiring all taxes to be assessed this year in order that the property owners might be relieved from the unreasonable figures fixed in so many cases last year. If the chief statistician and his agents at Nashville will now let the County Assessors do this work for which they were elected the public will get a square deal.

Fortune's Ice Cream is sold in Somerville exclusively by Harvey Morris. All orders delivered promptly. adv.

## Boiled Dinner.

Take three pounds of mildly cooked corned beef, one small head of white cabbage, three medium sized carrots, one Spanish onion, six medium sized potatoes, three sweet potatoes and one green pepper, seasoning as needed.

Place corned beef in kettle with cold water and cook until at boiling point, then drain off the water and cover meat with boiling water. Cook for one hour, then add other ingredients as follows:—First the cabbage, washed and cut into eighths, removing the core and coarse outer leaves; then the carrots scraped and cut into halves, then the onions skinned and cut into quarters, then the pared and quartered sweet and white potatoes and the green pepper seeded and cut into strips. If the meat is not very salty a little salt should be scattered between the layers of the vegetables. Now fasten on the close-fitting cover, and as soon as contents of kettle are boiling hard pack into fireless and cook from four to six hours. To be sure this is longer than the vegetable would need, but as they are above the water they will be steam cooked and not fall to pieces as if they were cooked rapidly. top of above.

## Blount County Farm Women Have Home Improvement Day

Wednesday, March 23, was a big day for farm women of Blount County. It was Home Improvement day and women from all parts of the county were gathered at Maryville to hear discussions on home conveniences, and to see exhibits of same which were displayed by the Maryville merchants. The object of the day was to create an increased interest in more farm home conveniences, labor saving devices and improvements for the farm homes.

In the forenoon a meeting was held at the court house at which various ways of improving the rural home and home conveniences were discussed. Maryville women were hostesses for the occasion and conducted the visiting women on a trip to the various stores of Maryville where home improvement articles were on display.

The day was indeed a most profitable one, drawing the women of the town and country closer together, and unifying their interests in home and community improvement by a day's association and better understanding of each other.

The exhibits made by the merchants showed the various articles being emphasized in the campaign for some conveniences and aided greatly in attracting attention to the advantages of such and in enabling the farm women to decide just what they want when they get ready to install them. There were displays of furniture, stoves and aluminum ware, kitchen equipment, porch furniture, washing machines, churns, glass ware, leather goods, etc. The grocery stores displayed flavorings, spices, fruit jars, etc. There was a display of musical instruments and things of this nature that add to the attractiveness of the homes. Window and door screens, fly swatters, garbage cans and numerous other things that add to the comfort, attractiveness and conveniences of the home were shown by dealers handling them. There were exhibitions and demonstrations of fireless cookers, home-lighting and water plans which are fast finding place in hundreds of farm homes in Tennessee.

Home demonstration workers of the Division of Extension, University of Tennessee, state that these home improvement meetings will be planned and held in many other counties in Tennessee during the year. Some were held last fall and were a marked success. Home demonstration agents of the Division of Extension believe that meetings and demonstrations of this kind will be more effective than any other method in convincing the housewife of the advantages of the many modern conveniences.

The Chamber of Commerce of Maryville and other civic organizations as well as the county council of agriculture cooperated with the merchants and Miss Deaderick in this movement.

Rats kill chickens, destroy eggs, eat grain, ruin clothing and leather goods, carry disease and there is not a single benefit that can be credited to them.

From its filthy den it visits dwellings and storehouses, polluting, and destroying human food.

The rat has been responsible for more untimely deaths among human beings than all the wars of history. It carries the deadly bubonic plague and many other diseases.

## Poultry Specialist Gives Pointers for April

This is the month to hatch pullets for winter laying, says Mrs. Kate M. Wells, poultry specialist, Division of Extension. Keep the mother hen confined in a coop for at least two weeks. "Bowel" trouble in young chicks is usually caused by cold or wrong feeding.

Do not feed baby chicks for 48 to 72 hours after hatching. Then feed hard cooked eggs ground or mashed with an equal quantity of rolled oats or dry bread crumbs (not corn bread).

Give sour milk or butter milk to drink from the first feeding.

During the first week wheat bran in shallow pans before the chicks at all times.

Give them this scratch feed: 50 pounds finely cracked corn 40 pounds finely cracked wheat 10 pounds rolled oats.

From the second to eighth week the scratch feed may consist of 60 pounds finely cracked corn and forty pounds finely cracked wheat.

The dry mash should be as follows: 20 pounds bran 10 pounds middlings 10 pounds corn meal 5 pounds meat scraps or tankage 1 pound bone meal.

If plenty of milk is available the meat scraps or tankage may be left out. Remember that milk, dry mash, and plenty of good green food are always needed if chickens are to grow and develop as they should.

## RUN-DOWN, WEAK

Strasburg, Va.—"Some years ago I was in poor health, was in a run-down, weakened condition. My home doctor could do me no good and I felt discouraged. My husband said to me, 'Why don't you quit doctoring with these doctors and try Dr. Pierce's Favorite Prescription?' I did so, with wonderful results before the first bottle was finished. I used three bottles, also the 'Pleasant Pellets', and have been healthy ever since. I can highly recommend these medicines to all who need them."—MRS. S. C. FEELY.

Send 10c to Dr. Pierce's Invalids' Hotel in Buffalo, N. Y., for a trial package of the Prescription Tablets.

## Club Boys' And Girls' Meetings During April

April is the month when most club boys and girls begin finding their calvers, pigs, and small chicks. It is also the time when many are planting gardens, potatoes, and corn. Those who make thorough preparation and keep up with their club work throughout the year will enjoy it and will be able to make out creditable reports in the fall, says G. L. Herrington, State Club Leader.

A club meeting should be held during April in each community. All club members should attend in person and make brief reports of their work. Those who attend meetings regularly and take active part in the programs derive most benefit from them.

The club president and local club leader should apply to the county agents for suggestions in making up programs. Those who are put on the program to read papers can get bulletins and other suggestions from the county agents. The following program is suggested for the April meeting of club boys and girls:

- 1—Reasons for preparing the land well before planting crops. (Club boy)
- 2—What can we do to prevent farm land from washing. (Club boy)
- 3—Feeding and Managing dairy calves. (Club boys)
- 4—How to win in the bread contest. (Club girls)
- 5—Feeding baby chicks. (Club girls)
- 6—Preparing and planting garden. (Club girls)

## This Bank Has Grown

The Somerville Bank & Trust Company is next to the youngest bank in the county, started business eleven years ago with a paid capital of \$10,000 and has increased that paid capital to \$25,000 without the stockholders paying any more money, the \$15,000 additional capital being taken from the accumulated net earnings from time to time. The capital stock, \$25,000, is now fully paid, making this the second largest bank in the county. On the progressive and business-like plan which has made this growth possible, we invite the business of Fayette county people.

W. M. MAYO, President

H. P. STAINBACK, Cashier

Somerville Bank & Trust Co.
